

RETROSPECTIVE

What went well:

- Twilio message service.
- Authentication and Authorization
- User friendly.
- Simple
- Time management
- Co-ordination among the team members.

What didn't go well:

- Tracking the exact location of the vehicle and notifying the police when an accident occurs.

What Actions to be taken:

- By using google map we have to work on tracking the location of the vehicle and notifying the police when an accident occurs.
